Dream

The image shows a close-up of a dark, textured surface. The texture is highly granular and irregular, with many small, light-colored specks and fibers scattered throughout a dark grey to black matrix. The overall appearance is that of a composite material or a mineral aggregate. The lighting is somewhat uneven, with slightly brighter areas towards the top and darker areas towards the bottom, highlighting the surface irregularities.

Green River

Gris Expo

The image shows a close-up of a highly textured surface. It is composed of a dense field of small, irregular particles in various shades of light beige, tan, and off-white. The particles vary in size and shape, some appearing as thin, needle-like fibers and others as small, rounded chips. The overall appearance is that of a composite material, such as particleboard or a type of wood-based panel. The lighting is even, highlighting the granular nature of the surface.
